## This Years' Speakers

**Lee & Cindi Whitman** (on the left) accepted God's

call to steward Restoring the Foundations International, as they received the baton from Chester & Betsy Kylstra. Their vision is to

continue the strengths of the past, and to expand them into several areas of emphases. These include ministering to and equipping the youth and young adults with RTF. They want to see every person, young, mid-aged, older, knowing and walking in the fullness of their destiny. Lee and Cindi have a passion to see the Body of Christ walk in the freedom, peace, and joy that is available to them in Christ, and to experience a passionate relationship with their Father God.

**Dr. Kathy Tolleson** is an author, spiritual

counselor, conference speaker and has produced ministry and teaching resources materials on a variety of topics. She has received national media attention

for her impact on the industry. Dr. Kathy has a passion to see lives transformed through the redemptive work of Christ on the cross. The Good News is not only salvation but healing for the broken hearted, beauty for ashes, freedom for captives, honor for shame, the Lord directing our lives in truth and the restoration of many generations. One of Kathy's areas of specialty is in the area of restoring sexuality. Some of her teachings include Sexual Damage, Sexual Abuse, Sexual Imprinting and Sexual Deviancy.

**Walter and Ida Cowart** NW Regional Directors

for Restoring the Foundations are committed to creating a 'safe place' for healing in the body of Christ. They offer RTF ministry, train people to minister RTF, help churches to develop their RTF ministry teams and offer training to equip people in the prophetic as well as develop their spiritual gifts. For 15 years they have served/supported "Hogar Amor", a large system of children's homes in Colima MX. They also teach, preach and provide support for Pastors in churches on the central Pacific coast of Mexico.
